23rd Annual Clinical Update in Geriatric Medicine

March 26-28, 2015

Marriott Pittsburgh City Center
Pittsburgh, Pennsylvania

Course Directors
Shuja Hassan, MD
Judith S. Black, MD, MHA
Neil M. Resnick, MD

Jointly provided by:
THE PENNSYLVANIA GERIATRICS SOCIETY – Western Division
UPMC / University of Pittsburgh Aging Institute
and
University of Pittsburgh School of Medicine
Center for Continuing Education in the Health Sciences

Co-sponsored by:
Geriatric Education Center of Pennsylvania
Introduction
As our population continues to age, we are seeing a tidal wave of older persons in our area hospitals, clinics and nursing homes. The fastest growing segment of the population are those above the age of 85 years. The purpose of our conference is to provide an evidence-based approach to help clinicians take exceptional care of these often frail individuals.

Nearly 40 state-of-the-art sessions taught by top, national experts speaking on the most clinically relevant topics in Geriatric Medicine, including:

- **Geriatric Cardiology** – latest information on Diastolic Heart Failure, Aortic Stenosis, Hypertension, and Hyperlipidemia
- **A Symposium on Geriatric Syndromes** including Delirium, Falls, Bone Health, Depression, and Dementia, with a focus on delivering practice-specific pearls to help you care for your elderly patients
- **Clinical Workshop Breakout Sessions**, including the popular “Ask the Expert” forums
- **A Dedicated Session** for Advanced Practice Practitioners and Pharmacists
- **Multiple Sessions** designated for Patient Safety-Risk Management Credit

Learning Objectives
At the end of this course, participants should be able to:

- Better understand why care in the elderly should differ from that in younger persons, and why the presentation of disease in the elderly is often atypical.
- Apply a geriatric approach to common syndromes including dementia, depression, delirium and osteoporosis.
- Assess and manage neurological disease in the elderly, including Parkinson’s disease, stroke and perform an appropriate neurological exam in an older person.

This course provides a collaborative effort of:

- Aging Institute of UPMC Senior Services and University of Pittsburgh
- Allegheny Health Network – Department of Medicine – Internal Medicine Residency Program
- Forbes Family Medicine Residency Program of Allegheny Health Network
- Heritage Valley Health System
- Highmark Blue Cross Blue Shield
- UPMC Health Plan
- UPMC McKeesport
- UPMC Shadyside
- UPMC St. Margaret
- Washington Health System

Location and Accommodations information on page 16.
Who Should Attend
This course is designed for family practitioners, internists, geriatricians, and other health care professionals who provide care to older adults. Previous attendees will also be interested because of the conference’s continually changing topics, speakers and approach.

Continuing Education Credit
Types of credit: CME, AAFP, Nursing, Risk, and ACPE
autorized by Topics that meet CME Patient Safety/Risk Management criteria are noted throughout the schedule
= Topics that are receiving pharmacy credit

CME – This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the University of Pittsburgh School of Medicine and the Pennsylvania Geriatrics Society – Western Division. The University of Pittsburgh School of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

The University of Pittsburgh School of Medicine designates this live activity for a maximum of 18.75 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

A maximum of 1.0 AMA PRA Category 1 Credits™ or .10 CEUs will be awarded for attendance at the dinner presentation.

AAFP – Application for CME credit has been filed with the American Academy of Family Physicians. Determination of credit is pending.

Social Work – This program is offered for 18.5 hours of social work continuing education through co-sponsorship of the University of Pittsburgh’s School of Social Work, a Council on Social Work Education-accredited school and, therefore, a PA pre-approved provider of social continuing education. These credit hours satisfy requirements for LSW/LCSW, LPC and LMFT biennial license renewal. For information on social work continuing education call (412) 624-3711.

Nursing – The University of Pittsburgh School of Medicine’s Center for Continuing Education in the Health Sciences and School of Nursing are collaborating in the development of this educational activity. Nurse participants successfully completing this learning activity (attending the full session, completing and submitting a program evaluation and a CE verification form) may receive up to a maximum of 18.7 contact hours.

The University of Pittsburgh School of Nursing is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center’s Commission on Accreditation.

7.5 CME credits designated as Patient Safety/Risk Management.

This two-day international conference is designed to educate Hospital Elder Life Program (HELP) teams regarding strategies for delirium prevention, using HELP to improve hospital-wide care of the elderly, and creating a climate of change. Expert clinicians and experienced members of the HELP sites will share evidenced-based information and clinical insights on selected topics regarding the influence of HELP, delirium updates, and the larger policy implications of care for the elderly. Updates on collaborative papers, expansion of the program and innovative site projects will also be presented.

Learning Objectives
At the end of this course, participants should be able to:
• Understand how delirium impacts older adults in the hospital
• Identify the advantages and challenges to using electronic medical records
• Describe informatics/tech innovations related to HELP
• Implement practical tools for advancing HELP at their institution
• Appreciate new developments in the biology of aging and their value for clinicians
